Forecast for Thursday 10 Sep 2020

Weather: Clear spells overnight with perhaps just the odd shower across the north. Then a bright start with some sunny spells, especially across the south, but cloud increasing through the morning with outbreaks of showery rain developing, especially in the afternoon.

Chance of cloud free mountain/hill tops above 800m: Around 80% at first with occasional cloud above 750m. Chances but fall to around 40% in the north and west during the afternoon with cloud becoming periods above 600m and 60% further south and east with cloud occasional or periods above 750m

Visibility: Very good falling to several kilometres in outbreaks of showery rain.

Met Office Aberdeen Meteorologist's View
Significant chill effect expected on the higher slopes and tops.

Forecast for Friday 11 Sep 2020
Weather: A cloudy start with persistent heavy rain in the south and west and lighter patchier rain in the northeast, the rain clearing to leave sunny spells and blustery showers by midday. The afternoon sees further sunny spells and blustery, perhaps thundery, showers.

Maximum wind: Southwesterly 35-40mph, with gusts around 60mph over ridges and summits, gradually easing 25mph through the afternoon.

Chance of cloud free mountain/hill tops above 800m: Little chance at first in the south and west with periods or persistent cloud above 450m but nearer 20% in the east with periods of cloud above 600m. Chances improve to around 60% in the afternoon with occasional or periods above 750m.

Visibility: Very good falling to several kilometres in rain and showers.

Temperature: **Glens:** Around plus 9 Celsius rising to plus 15 Celsius
At 800m: Around plus 7 Celsius
Freezing level: Above the summits.
